

Mount Adapter for *DigiCAM*[™] [type W]

Weight: 13 kg

Image shows mount adapter with optional IMU adapter plate.

The mount adapter can be loaded with one, two or up to four cameras. All cameras can be controlled and monitored by the *DigiControl* computer. Likewise, one *CCNS4* is enough to trigger all cameras, and by the help of one *AEROcontrol* the elements of exterior orientation can be determined for all

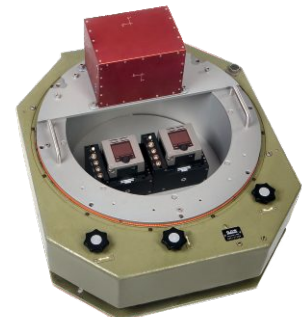

Example of GSM3000 mount with mount adapter, IMU and two digital cameras.

The *DigiCAM* Mount Adapter [type W] is available for:

- Somag GSM3000
- Wild/Leica PAV10/20/30
- Zeiss-Jena LMK1000/SM2000

For the T-AS mount a custom-made adapter is available.

Example of Wild/Leica mount with mount adapter, IMU and two digital cameras.
